Regional Poverty Shifts, 1989 to 1999, Portland, Oregon

Notes: 1) "Not Applicable" areas may not be included for the following reasons a) population in 1989 or 1999 was less than 500
b) due to tract boundary changes a comparison could not be made between 1989 and 1999.

2) Several adjustments were made to 1989 tract boundaries. To compare 1989 tracts with 1999, 1989 tracts were reconfigured to conform to 1999 boundaries. The 1989 non-institutionalized population was redistributed based on 1999 population proportions.
